

Display, performance, practicality

Designed for underbar use and to compliment our Bartender range of modular underbar systems, the BM range can be integrated perfectly into new or existing Bartender bar runs.

All models are available with unique sliding glass doors to allow contents to be seen without opening. Perfect at busy times when service and stocking are paramount. The reduced opening times for the glass door option help to reduce running costs.

The BM range utilises the latest compressor technology to ensure rapid cooling and constant temperatures whatever the situation.

Conventional storage using optional dividers

Dimensions	H (mm)	W (mm)	D (mm)	Capacity (330ml bottles)
<b>BM70 STD</b>	875	700	560	140
<b>BM70 BT</b>	950	700	560	140
<b>BM100 STD</b>	875	1000	560	210
<b>BM100 BT</b>	950	1000	560	210
<b>BM140 STD</b>	875	1400	560	308
<b>BM140 BT</b>	950	1400	560	308

Rapid cooling times mean that bottled and canned drinks can be chilled and served faster, helping your staff manage customer demand especially at busy periods.

Available with standard front and no splashback the new BM range can be installed in any bar environment.

With a range of shelving and divider options the BM range allows bottles to be stored in the vertical position enabling rapid loading and serving while still maintaining the essential contact with the customer.

The BM range is also available with easy to use baskets, allowing quick and efficient restocking while maintaining greater stock control.

Available in 700mm, 1000mm and 1400mm wide versions, the high quality BM range is supplied in hygienic and extremely durable stainless steel. Ideal for any bar environment.

### The Mistral Range

The stylish Mistral bottle coolers can be specified as part of a complete bar solution or individually as required.
